[NOTE: This is the way the results were published in *The Visor*. (I have added the car numbers and descriptions from the official programme). It demonstrates the W A Sporting Car Club, and indeed CAMS, was still fixated on handicap races for major events, even though the AGP was officially a Scratch race. Lots of detail on the handicap results, but sketchy data at best on the scratch, ie, real results.]

Western Australian Sports Car Race 40 laps; Hcp placings over 25 laps.

State Championships, Caversham 4 September 1957

[Detailed lap charts apparently published in October 1957 *Visor*, which I do not have at present.

Note: Officially, there were no overall Champions, but rather Over 1500 cc Champions and Under 1500cc Champions.

The Racing Car Championship was over three races and determined on a points system. The points system was not reported, but the previous 2 years used 5 4 3 2 1 for the 1st 5 places, and there is no reason to believe that this had been changed.]
